

THE BENEFITS OF NEW WITHOUT THE COST

SANDVIK COMPONENT SOLUTIONS — NEW FOR OLD

MAJOR COMPONENTS MAJOR PROTECTION FOR EQUIPMENT

Our New for Old solution provides high-quality components with high availability at a reduced price when you return your used core. Not only does our solution lower your total cost of ownership, but it also protects your operation from unexpected stoppages so you can focus on what you do best.

Why risk a repair solution that does not have Sandvik OEM standards and quality. Our New for Old solution ensures that you get a new component at a significant cost savings without having to compromise on quality.

UNPARALLELED QUALITY

Our new genuine Sandvik components will always have a longer and more reliable life than repaired or non-genuine components. And with New for Old, you can enjoy the benefits of a new component at the cost of a repaired one, when you return your used component.

Our Sandvik components are built to exceed expectations, minimizing the risk that something goes wrong and maximizing your operational performance. When it comes to cylinders, more specifically, we help reduce injury risk as well as your maintenance costs because fewer cylinder replacements are required.

Like all Sandvik components, those offered through our New for Old solution are engineered for safety, productivity and reliability in the toughest mining conditions. We guarantee the quality of all our new components with a full six-month standard warranty. And with high availability, we ensure quick on-time delivery of new components and remove used ones from your mine site.

Our New for Old solution, driven by our trained service technicians and quick logistical processes, helps protect your capital investments and keep them productive 365 days a year.

YOUR WISHES, OUR COMMAND

Reduce your total cost of ownership and maximize productivity

Get peace of mind knowing you're protecting your valuable equipment

Reduce your downtime with components that deliver long and reliable life

Six-month warranty

Reduce injury risk due to fewer repairs

HOW DOES IT WORK?

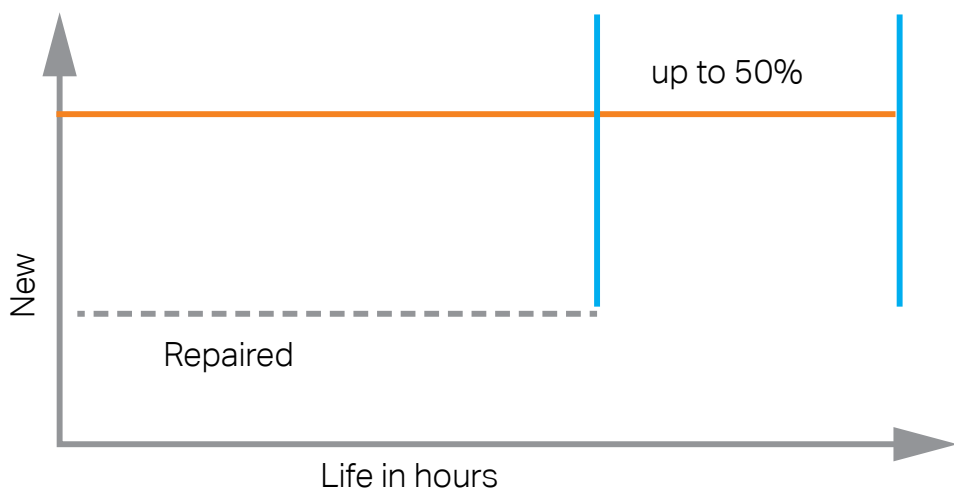

Get top-quality, long-lasting OEM components from a partner who understands your needs and knows your equipment best. New for Old is our cost-efficient new component solution that provides you with a new Sandvik component at a reduced price in exchange for your used component.

The solution is available for selected component families and is offered under a special agreement. Enjoy peace of mind and higher productivity with New for Old.
